Personal Summary

First-Class MSc Robotics and BSc Physics graduate transitioning from a technical background into operations and events, where I believe I can have the most impact. I bring strong analytical and technical training alongside hands-on experience running events end to end, sourcing and managing vendors, coordinating logistics across multiple workstreams, and leading volunteer teams, with a track record of turning fundraising and enterprise initiatives into measurable results. I am motivated to help build the organisations and communities working on the world's most pressing problems.

Professional Experience

Production Coordinator · The Centre for Effective Altruism · part-time **2026 - present**

- Summit on Existential Security (UK): sourcing vendors across multiple workstreams and consistently delivering on time and under budget; tracking detail across logistics, flagging and resolving issues before they affect delivery; will run the production room during the summit.
- EA Global London 2026: ran the 300-capacity workshop room, managing back-to-back sessions.

Effective Altruism Manchester · part-time

Chair

2024 – 2025

- Grew the committee from 2 to 10 members.
- Facilitated the In-Depth Fellowship programme, more than doubling the society's reach.
- Mentored members directly, several of whom went on to secure high-impact roles.

Events Officer

2023 – 2024

- Doubled the number of talks hosted and grew event sign-ups from the low tens to over 100.

The Corrie Hotel · Isle of Arran, Scotland · part-time

Shift Supervisor

2023

- Introduced automated stock tracking and streamlined point-of-sale processes, saving hundreds of staff hours.
- Designed drink-specific whiskey and gin menus that doubled sales.
- Redesigned the breakfast set-up, halving prep time.

Front of House

2022

- Delivered front-of-house service across the bar, restaurant, and breakfast service in a busy island hotel.

Insight Placements

2021

One week at each of PricewaterhouseCoopers, The Royal National Theatre, and Nando's Ltd.

Education

The University of Manchester

2021 - 2025

- MSc Robotics, First Class Honours, ranked highest in cohort.** Modules included Machine Learning, Software for Robotics, and Robotic Vision.
- Dissertation: "Corroborative Verification and Validation of an Autonomous Warehouse Inspection Robot Using High-Fidelity Simulation and Probabilistic Model Checking."
- BSc Physics, First Class Honours.** Modules included Object-Oriented Programming in C++, Computational Physics, Particle Physics, and Applications of Quantum Physics.

Abingdon School

2016 – 2021

- A-levels: Mathematics A*, Physics A*, Geography A*, Further Mathematics A, EPQ A*.
- GCSE: 11 subjects at A* equivalent, including Additional Mathematics, Physics, Computer Science, German, and English.

Leadership, Awards & Development

- Technical AI Safety course**, BlueDot Impact.

- **Neural Networks: Zero to Hero**, Andrej Karpathy.
- **Charities Committee Chair, Abingdon School**: chaired the committee; created fundraising events including a sponsored walk that raised £40,000; as Head of the Charity Tuck Shop, turned a loss-making enterprise into one delivering £3,000 per year to charity.
- **RI Mathematics Masterclass**: devised and taught a series of maths masterclasses for disadvantaged pupils.
- **EPQ (A*)**: *“Why we should strive for gender equality in Physics: looking beyond the moral imperative.”*
- **Blott-Matthew’s Challenge**: highly commended project and prize for best presentation.
- **Eco Committee**: introduced a comprehensive school-wide recycling system and worked with the catering supplier to cut food waste and water use.

Hobbies/Interests

- A PADI Advanced Open Water Diver and keen traveller.
- Swam the length of the Panama Canal (73 km in a pool), raising £2,136.
- Interested in politics and a member of all the main UK political parties.
